Empire and Victoria Day Carnival May 23-4-5

National Holiday Will Be Observed by Community Gathering at the Arena

Beautifying Ground at Town Hall for War Veterans Memorial in Progress

\$2,000,000 for Coal Subsidies Will Assist Employment of Canadian Miners

Patriotic Program By Cameron School Children Will Open Carnival

Citizens and School Children Will Join in Celebration of Canada's National Holiday

May 23-24-25 will be gala days in Coleman. The Citizen's League executive, supported by an enthusiastic and loyal working committee, are staging a three nights carnival to raise funds for community purposes.

Three major prizes—and useful prizes too—will be drawn for. The night of the 23rd, a General Electric Radio, value \$189.00, will go to the lucky ticket holder. The second night, May 24, the prize is a Maytag electric washer, value \$189.00, while on the third night, May 25, the premier prize will be a handsome three-piece Chesterfield suite, value \$275.00; a beautiful addition to any home and which will be eagerly sought.

Opening on the evening of May 23 (Empire Day) with an appropriate program by the children of Cameron school, under the direction of Miss A. Yuill and the teachers, the carnival will proceed in full swing for three evenings. Novelty booths, old and new games and various other features will provide plenty of fun. Arcadians orchestra will play for the jitney dance each evening, and refreshment booths will be in charge of J. Lysick of the Palm Confectionery and Mrs. M. W. Ferguson of Elite Cafe, where the traditional "hot dogs" will be will be a feature and help to provide the proper carnival atmosphere.

Coleman people will enjoy this grand holiday carnival, which will provide three merry evenings. No matter what the weather may be, the show will go on, rain or shine, and the arena will be the liveliest

place in the Pass throughout the coming holiday.

And, just as a friendly reminder, storekeepers and householders are requested to hang out their flags and place decorations, thereby giving a holiday appearance in keeping with the occasion.

Attended Oxford Group Meetings at Banff

Ministers from Pass towns attending the house party of the Oxford Group at Banff were Rev. Roy Taylor, Rev. A. E. Larke, Rev. J. Wood of Bellevue and Rev. N. W. Whitmore of Pincher Creek.

Mr. Taylor commented very highly on the inspiration and spiritual benefit of the Bauff gathering, as evident in the meetings wherever the group stays. Many Alberta ministers attended, and a large party of 120 people came from Vancouver. At one meeting over 600 people were present.

Though making a hurried trip by car, Mr. Taylor states the time was well spent.

A Worthy Project

Stave Leosky has been trying to raise sufficient money among the people of the Roman Catholic church in Coleman to pipe water into the R. C. cemetery. The only way by which water can be obtained at present for watering the flowers on the graves is by a tire-some drag up and down a hill near the cemetery. It will cost about \$200, a comparatively small sum when the benefits that would accrue are considered, as well as the help it would be in keeping the cemetery green during the hot summer months. Many will wish Mr. Leosky success in his efforts.

The pavilion at Crows Nest Lake owned by A. Morency opened on May 6, many young people from the Pass towns attending the dance.

Improvement Passed by Council Regarded With Favor By Ratepayers

25 Trees of Remembrance For the Coleman Men Who Paid the Supreme Sacrifice

The town council at its regular meeting on Tuesday evening approved the plans for improving the vacant spot adjoining the town hall, and the work is now under way, giving work to a number of unemployed who are on relief.

A stone and cement wall will enclose the plot, which will be sown to grass, the gravel being removed and good soil being brought in to enable trees, shrubs and flowers to be cultivated. It is anticipated that a very pretty setting will be given to the memorial cairn which it is expected will be erected by the Canadian Legion.

The council has ordered twenty five poplar trees, one for each man from Coleman killed during the Great War. The wall will be surmounted by an ornamental fence, and the plans submitted by Contractor D'Appolonia will be carried out.

Setting Forest Fires Brings Conviction of Two Coleman Boys

Extensive Damage Averted By Quick Action Following Report From West of Town

Two lots of this district, aged 19 and 17 years, were each fined \$25.00 and costs or in default one month's imprisonment for setting fire to the forest on Sunday afternoon. The case was heard before Magistrate Graham in the local police court. The fire was reported by Andrew Dow to Forest Ranger Boulton, who noticed dense smoke as he was walking west of town.

Ranger Boulton and Constable Henderson, R.C.M.P., investigated with the result that the two lads were charged with the offence. They gave no reason beyond wanting to burn some old stumps. The fire had been set in several places, and had it got away before a stiff breeze in the right direction, would have caused thousands of dollars worth of damage.

Mother and Daughter Banquet

On Monday, May 8, the annual mother and daughter banquet was held in St. Paul's club room. Forty mothers sat down to a sumptuously prepared banquet with their daughters. The girls in their C.G.I.T. uniforms gave a pleasing effect to the gathering. J. Fairhurst, superintendent of the Sunday school; A. Lonsbury, representing the boys, and Rev. Roy Taylor, minister, were among the invited guests.

Mrs. Holmes, Mrs. Fairhurst, Mrs. Milley and Mrs. Dibble waited on the tables.

Pantry Sale and Tea
The Ladies Guild of St. Albans' church are holding a pantry sale and afternoon tea at Mrs. Gate's store on Saturday, May 13, from 3 to 6 p.m.

Coleman Defeated Bellevue United

To Johnny Anderson belongs the honor of shooting the goal which won the game for Coleman at Bellevue on May 6. It was a long drawn out battle with neither side scoring till about five minutes before the close of play.

Coleman came home elated with their victory, and a big crowd is anticipated for the next game between these teams which will take place at Coleman on

Local News

Remember that all cheques up to \$100 must have a three cent stamp attached.

Mrs. Burns recently arrived from Vancouver, with her daughter, Mrs. J. James, who had been spending a holiday there.

The first league football match will be played at Blairmore on Saturday, Coleman playing against them.

Mr. and Mrs. J. Wheatley of Banff were here during the week visiting Mrs. Wheatley's mother, Mrs. Chalmers, and her sister, Mrs. George Reid.

A merry whirligig of household moving took place this week. Supt. J. A. McLeod will occupy "Spey Royal" castle up on the hill; Cuthbert Devine will move up to the house vacated by Mr. McLeod on Royal Heights overlooking the town; Jack Devine will move into the house vacated by his brother, and Walter L. Frederickson, foreman at Sentinel Motors, will move into the house vacated by Jack Devine. After all are settled, house warmings will be in order.

Local News

West Coleman softball club express sincere thanks for the support given them by the workers, mine officials and business men. W. Cousins, president; F. Vincent, secretary.

Requests for permission to erect service and filling stations at Crow's Nest Lake were filed by the town council. One application was from A. Morency of Blairmore and one from J. Regner of Coleman. The applications were not favorably considered.

Officers appointed by the newly-organized town band are H. Vincent, president; J. McDonald, secretary treasurer; A. Easton, bandmaster; James Lowe, assistant bandmaster. Citizens generally will welcome the boys, and credit is due to the leader who has been instrumental in re-creating sufficient interest to resume practices.

Mrs. A. Cornett left on the evening of May 8 for Vancouver, stopping off at Fernie, to visit her husband, who is in hospital with a fractured leg sustained in a mine accident. She was called to Vancouver owing to the serious illness of relatives, and will probably remain there for several weeks.

The open house is undergoing a cleaning, the first it has had for years, and is being made ready for various activities of local organizations. The Citizens League will have charge of arrangements and it is hoped that it will become a community centre which will be a splendid asset for the people at large.

Hon. Wesley Gordon Defends Government's Employment Policy

Liberal Free Trade Member Tries to Have Vote Struck Out But Is Ruled Out of Order

OTTAWA, May 10.—To the accompaniment of a vigorous onslaught on bonuses and subsidies of all kinds from E. J. Young, veteran free trader and Liberal member of Weyburn, the house of commons passed a vote of \$2,000,000 for coal subsidies. Mr. Young first moved to strike the vote out altogether and then to reduce it to one dollar. The first motion was out of order and the second was voted down.

While he was opposed to any reduction in the vote A. W. Neill (Ind., Comox-Alberni) thought the government was not doing enough to aid the coal industry on Vancouver Island. A dumping duty should be placed on imports of British coal which were subsidized and shipped in ballast.

Declining to quarrel with Mr. Young's theoretical objection to bonusing industry, Hon. W. A. Gordon contended the vote was justified.

"I propose to pursue the course this government has pursued in the past," said Mr. Gordon, "namely as need arises to give such support as it can to the coal industry in order to enable it to carry on and give employment to its workers." There were certain industries, the minister said, which were so vital to the country they could not be allowed to drift without assistance, particularly in times like the present.

World Co-operation In Prospect

Events of the past few weeks have concentrated attention on the independence of the nations of the world, and, by their promise of a general attack on a world scale upon the major problems of the hour, have injected new hope in suffering humanity that at last a serious effort is being made to cure the ills which have prostrated the world economic system. Conversations of leading statesmen at Washington, definite assurance that the world economic conference will be held in London next month, the prospect that solution will be found in reciprocal tariff arrangements and adoption of an international monetary unit, have had immediate beneficial effect in the markets of the world, and appear to have restored some of the confidence lost in the crash of 1929 and the bitter years since.

Canada, in particular, faces the task of committing its new crop to the fertile soil with a renewed optimism and a higher courage. Assurance from Washington and Ottawa of reciprocal agreements in the offing that will tend to reopen channels of trade long made barren and unproductive by prohibitive tariff barriers, have produced a most welcome reaction in the Prairie West. Conjoined with this looms possibility of an easing of the general trade situation in Continental Europe where Canadian wheat has found continually increasing obstacles to overcome—obstacles created by local fears and narrow prejudices. The movement toward world co-operation bears with it also the harbinger of such conditions as will make effectively beneficial the Empire trade agreements consummated at Ottawa, last year. With these auspicious circumstances encouraging him, no wonder the Prairie Farmer says his bold hopes with his seed this year!

The idea that an international problem can only be tackled successfully in an international way, was long in penetrating the minds of many world statesmen. This may have been due to the fact that statesmen were proverbially hesitant of moving in advance of public opinion—and it is a fact that public opinion, since the war, nurtured on fears and desperation, has been notoriously nationalistic in sentiment in virtually every civilized country. In consequence, the nations have spared defensively to evade discrimination, despite the general abhorrence of war; and have erected tariff barriers in the futile hope of developing self-contained national economies, despite the fact that a customs port may be more provocative than a concrete fort. The resultant stimulation of animosities has tended to retard concerted action upon the economic problems; but the strangulation of world trade with its accompaniment of widespread unemployment and almost universal suffering, has finally served to awaken general realization of the essential interdependence of nations, and recognition of the fact that the sure path to recovery lies through co-operation. Even France, with all her hoards of gold, has been forced recently to borrow \$150,000,000 from England to buttress the franc, demonstrating that in this day and generation no country is so organized as to be able to live of itself alone.

Generally speaking, therefore, it may be said that the world at last has become internationally-minded; and that is a sign that common-sense is reasserting itself. In Germany alone would there appear to be a reactionary movement towards a narrow nationalism, but the movement in Germany is capable of a dual interpretation. It may be true that Herr Hitler and his Nazi army have resurrected some of the more subversive characteristics of Prussian "Junkerism" in their so-called "bloodless revolution"; but it is also true that Herr Hitler has evinced a willingness to negotiate with other nations of the world not only in matters of trade and commerce, but also in matters of armaments. The new Germany, therefore, while driven along internally in a narrow nationalistic regularization by men imbued with the "administrative ideals of a sergeant-major" (as Gudella would say), is awake to the necessity of co-operation in the wider field of world politics and trade in the interests of world peace and world prosperity. That is to say, the rigors of the Nazi discipline would appear to be fundamentally protective of the German Commonwealth against the peril within the gates rather than aimed at any imaginary peril from without. In any case, the German internal situation does not necessarily impair prospects of a successful solution of the world economic problem, nor weaker hopes of a restoration of normal trade relations among the countries of the world.

Blame the Translator

British Authority Says Cinderella's Slippers Were Fur and Not Glass

Cinderella's slippers, popularly supposed to have been made of glass, really were made of fur, according to Sir Gerald Wolaston, garter king-of-arms and an authority on heraldry. He told members of the Royal Society of Antiquaries that the slipper was made of "vair," which is heraldic for white and blue. The other idea, he said, came from a confusion with the French "verre," meaning glass.

Not So Good

A farmer's son once decided to be a lawyer. His father drove him into town and got him a job as office boy to a law firm. Three days later the young fellow was back home again. "Well, Josh, how do you like the law?" his father asked.

"Aw, it ain't what it's cracked up to be," said the boy. "I'm sorry I ever learned it."

The Netherlands may restrict planted areas for agriculture.

Hold Meetings By Telephone

Post Office In London, England, Gives Unique Service

So that business men in widely separated towns can hold a joint conference without travelling, the general post office in London, England, has arranged for simultaneous telephone connection.

The matter is arranged simply by informing the post office that certain specified people, in say, London, Manchester, Leeds and Glasgow are required at a definite time. The general post office links them up and they can then each hear the voices of all the others and do their business as though they all sat in one room.

Another thing that has been demonstrated is that a car going 60 miles an hour will hit a concrete apartment just as hard this year as it did last.

Diamonds (no larger than one-twelfth of a carat so far) have been manufactured at Columbia University at a cost of approximately \$5 a carat.

Nervous—Could Not Sleep Tired Out All The Time

Mrs. George Scribner, Nauwewaak, N.B., writes:—"I was so very nervous I could not sleep at night, and felt tired out all the time."

A neighbor told me about Milburn's Heart and Nerve Pills, and as she was using them at the time she gave me some to try. I found they were doing me so much good I purchased two boxes and they proved of wonderful help to me."

For sale in all drug and general stores; put up only by The T. Milburn Co., Ltd., Toronto, Ont.

House Had Gold Ceiling

Residence Of Former Chicago Bank Director Sold By Auction

The famous house with the 14-carat gold-ceilinged smoking room, lined with morocco leather—a house so luxuriously furnished it would have done credit to a fabulously wealthy Indian Maharajah—has gone on the auction block at Chicago.

It was the home of Frank A. Mulholland, real estate operator and a former director in the chain of twelve defunct Bain banks, who was indicted with other officials of the financial institutions.

The house, situated in exclusive Beverly Hills, was one of the show places of the section.

The building contains eleven rooms and sold along with it were the costly furnishings which included a beautiful hand-carved antique dining room suite of walnut, and French walnut love seats.

HAS LOST FAT FOR THREE YEARS

68 lbs. Gone Altogether

A woman writes:—"For nearly three years I have been taking Kruschen salts, especially the hot water, and have lost 68 lbs. of fat. My weight before taking them was 196 lbs., and it is now 128 lbs. Compare the difference! It is remarkable what results can be obtained by taking Kruschen and lots of out-of-door exercise, and think they are wonderful. As regards diet, it is not necessary to do one little bit of dieting; in my case I have never had to give up anything since I started taking Kruschen Salts. I walk every day, and do not eat many potatoes or much sugar. I don't think I shall ever be able to get back to 128 lbs. Set me free, and shall never stop taking them, or recommending them to people I think need them." (Miss) K. T.

Take every tablet, Kruschen effects a perfectly natural clearance of undigested food substances and all excessive waste matter. Unless this wastage is regularly expelled, Nature will eventually store it up out of the way in the form of ugly fat.

Need More Cattle Steamers

Western Brokers' Claim Only Six Available For Trade

Negotiations of the Dominion Government to subsidize ocean tramps to enter the Canadian cattle trade is strongly resented at Winnipeg. Brokers point out that only six tramp steamers are available to this trade, that two British companies have chartered these boats and that the tramp steamer owners some months ago offered to pay half the cost of fitting up the boats to carry cattle.

The Dominion Government was silent on this issue. Today, as a consequence, the Canadian cattle export trade is limited only by the capacity of these steamers to carry cattle.

They are scheduled to carry 450 each every three weeks to Britain all summer which will mean that a maximum for the year of 45,100 will be exported.

Canada could easily export 100,000 head if claimed. The cost of fitting a boat is about \$12 per head of cattle capacity. A boat big enough to take 500 head would cost \$6,000. A boat to carry 400 head would cost \$4,800.

Complete Twelve-Year Task

Priest-Artist's Paintings Adorn Walls Of Gravelbourg Hospital

Msgr. Chas. Mailleur, priest-artist, has completed twelve years' labor in painting religious pictures adorning the walls of Gravelbourg hospital.

His "Way of the Cross," just finished, consists of fourteen life-size paintings placed around the church proper. They are rich in colours, beautiful and of aesthetic value. In addition to beautiful contrasts of colors, symmetry, order, regularity and balancing of ideas are found in his work. They come from the mind of an artist, who has painted the apologetic, dogmatic and moral doctrine of the Christian faith.

The Explanation

Wife—"Henry, here you are grumbling about a few little bills for my hats, stockings, and whatnot. Do you know I could have married M. T. Head, the telephone magnate and he's a millionaire. But I didn't."

Henry—"Yes, that explains why he's a millionaire."

They have made a new form of oath for dentists. It reads something like this: "Do you swear to pull the tooth, the whole tooth and nothing but the tooth."

Meteor Crater, Arizona, is 4,000 feet in diameter and 600 feet deep.

Impressed By Visit

British Vice-Admiral Gives Account Of Trip To Canada

Vice-Admiral Francis Wade Caulfield gives a breezy account of a six-week's visit to Canada in his report as president of the association of retired naval officers.

"A small property near Vancouver was recently turned over to me. Affairs connected with this property or settlement (called 'Caulfield') after my father, who bought it as virgin forest and started to develop it at the end of the last century) necessitated a trip through Canada to the Pacific coast, and so, incidentally, gave me the opportunity of meeting A.R.N.O. members of whom, in September, there were 24 scattered between Nova Scotia and Alaska. It was a strenuous, but splendid six weeks. The welcome given me everywhere was something not to be forgotten, and I should like to take this opportunity of once again thanking my various hosts and hostesses for their charming hospitality and the truly delightful and extraordinarily interesting time they gave me."

"One member (working on a farm for his approaching university degree) was pitching corn, another was running a fiery, another was perched on a sort of Elfin Tower as fire 'look-out' in the forest area of Ontario. A fourth member owned and worked a 20 acre fruit farm. Apples! Why the branches were breaking with their load, and hardly a tree but carried 2,000, some nearly 5,000 apples; whilst a fourth a 'J.P.' in the Rocky Mountains, and friend and counsellor to the whole of his little community, in fact, his word 'went' and little was done in his district without the knowledge and approval of 'The Commander.'

"Everyone who was dependent on pension or English income was being badly hit, the pound sterling having dropped from £4.86 to £3.80 and 'servants' were becoming a luxury. I was amazed, however, to find how comfortable and happy a family can be in a house sans servants, but fitted with labor saving appliances, cheap electricity, and a cheerful and efficient housewife."

Support Land Scheme

Regina To Participate In Provincial Back To The Land Plan

Decision to participate in the provincial government's back to the land scheme was reached by Regina city council recently, although some criticism was directed to two points in the scheme. Protested points were that the cost per family will be higher this year than last, and the change of policy of the government this year compared with that in effect last year.

The Dominion Government was silent on this issue. Today, as a consequence, the Canadian cattle export trade is limited only by the capacity of these steamers to carry cattle.

They are scheduled to carry 450 each every three weeks to Britain all summer which will mean that a maximum for the year of 45,100 will be exported.

Last year the cost to the city per person was \$100 and some older persons who went out under last year's plan would have ground for objection to an advantage given to those going under this year's plan.

Patrol Hudson Straits

Government Ice Breaker To Be Used On Route In Summer Season

The government ice-breaker N. B. McLean will again act as patrol boat and escort to freighters using the Hudson Straits route during the summer season, according to announcement from the Department of Marine. The powerful ice-crusher will go into dry dock here for overhauling, following which she will take on supplies and provisions for her voyage north, which will probably start about the end of June.

Judge: "Who was driving when you felt that car?"

Drunk (triumphantly): "None of us; we was all on th' back seat."

Radio telephone service between trains and ferries has been inaugurated by a railway in Germany.

SOURED ON THE WORLD?—THAT'S LIVER

Wake up your Liver Bile

—No Calomel necessary

Many people who feel sour, sluggish and generally uncomfortable are taking salts, oil, mineral water, leavening agents, chewing gums or roughage which only makes things worse.

What you need is to wake up your liver bile. Take a few pounds of liquid bile into your bowels. Get rid of the stale intestinal wastes working the bowels.

Caesar Liver Pills will soon fix you up. Pure vegetable extract, no drugs. Ask for them by name. Refuse substitutes. Eat all the drugs.

Dominion Drama Festival

Masquer Club Of Winnipeg Awarded First Place

The Masquer Club of Winnipeg, is winner of the Dominion drama festival competition, with their play "The Man Born To Be Hanged," by Richard Hughes. The Winnipeg club received a marking of 83 per cent. of excellence from Rupert Harvey, festival adjudicator.

To the Masquer Club will be awarded the Beaconsfield cup, emblematic of amateur dramatic supremacy in Canada, as well as the special trophy given for the best play in English to be presented during the festival.

As the second best presentation either English or French Mr. Harvey nominated "Les Ranzants," by Emile-Charron, which L'Union Dramatique de Quebec Enr. Offered as their entry. This performance received a marking of 80 per cent. of excellence. The Quebec dramatic organization will receive the special trophy awarded for the best play in French, although it is notable that "Les Ranzants" took second position in the whole competition.

The second best English performance during the competition was "Back to Methuselah," by George Bernard Shaw, which the Vancouver Little Theatre Association gave. This presentation received a marking of 79 per cent. from Mr. Harvey. Only Part I. of the first act of this play was presented.

Third in the English plays came "Will Shakespeare" by Clemence Dane, presented by the Ottawa Drama League Group B. Its marking was 77 per cent.

In the French plays, "Le Bal des Femmes," by Le Cercle Dramatique des Etudiants de Leval, Quebec, was awarded second position. Its percentage was 65. This play was presented.

The third best performance (1st act), "Une Affair d'Or" (1st act), by Marcel Gerbier, which Les Anciens du Gesu de Montreal presented. It gained 63 per cent. of excellence.

Fast Northern Trip

Constable Travels From Chesterfield To Churchill in Seven Days

From Chesterfield to Churchill, a distance of 425 miles, in seven days is the accomplishment of Constable Norrie Yates. This is the shortest time on record. Constable Yates, accompanied only by an Indian guide, travelled by dog team.

The feat of the young constable was accomplished early in April. The trip to Churchill is only made twice a winter to carry mail and necessities. Constable Yates was an escort to a western Canadian scientific explorer for a month last winter and spent that time completely away from civilization, living the life of an Eskimo.

Adoption of the system of trial by jury is being discussed in the Philippines.

Many Protests Heard Over New Wage Tax Levied In Manitoba

Winnipeg, Man.—The law levying a two per cent. tax on all wages is on the statute books and the Manitoba Government is going to carry it out. Manitoba citizens had been informed after more than 5,000 men and women staged an orderly demonstration in the grounds of the legislature buildings here Saturday, May 6.

John Queen, Independent Labor leader in the Manitoba legislature, made the announcement as Premier John Bracken's reply to a deputation which conferred with the government in the building, while the mass meeting was addressed by a corps of speakers outside.

Premier Bracken told the deputation threats had reached him of unemployed rioting if they did not get more, and of employers striking against paying the tax. He said he believed good citizenship would prevail and was confident there would be neither strikes or riots.

No disorder took place during the demonstration.

W. L. Kolsky, president of the Workers' and Farmers' Co-Operative Association, in a letter addressed to the premier, stated his organization would refuse to collect the tax. The Federation of Shop Crafts, Canadian National Railways, also protested to the premier.

Two motions passed by the civic finance committee will, if endorsed by the city council, place the city in a position of open defiance of the government tax on wages. The committee approved a motion recommending the city treasurer make no deductions from city employees' pay cheques and approved the advisability of engaging the best legal talent to test the validity of the tax.

John Tomen, chairman of the Shop Federation, in his letter to the premier stated: "We have already notified the local management of the Canadian National Railways that in the event of their attempting to make any reductions from our wage cheque it will be considered as an arbitrary violation of our wage agreement and as such will be strenuously opposed."

March Exports To U.S. Down

Ottawa, Ont.—Agricultural products exported to United States in March totalled \$416,780, as against \$453,823 for the corresponding month last year, according to a report issued by the Dominion Bureau of Statistics. For the nine months ending March, farm products exported to United States were valued at \$2,517,705, as compared with \$7,731,674 for the corresponding period in 1931-32.

Establish Churchill Ports

Ottawa, Ont.—Harbor tolls and dues comparable with other Canadian ports are being established at Churchill for the coming season, Rt. Hon. Arthur Meighen, government leader in the senate told Hon. J. P. B. Casgrain. Regular tariffs and elevator charges would also be established, Mr. Meighen said.

May Form New Body To Be Called Canadian Pension Commission

Ottawa, Ont.—Merger of the board of pensions commissioners and the pension tribunals, with the present functions of the two performed by a new body which may be called the "Canadian Pension Commission," is now contemplated by the government.

This was announced to the House of Commons committee that is examining the bill amending the Pension Act by Colonel James Arthurs (Cons., Parry Sound), chairman of the committee.

The necessary legislation to bring this about will be placed before the committee as amendments to the present bill. Its implication is that both the board of pension commissioners and the tribunals will disappear as such.

Personnel of the present commission and either four or six of the present tribunal will be retained, according to whatever decision is arrived at with regard to the size of the new body.

Making his announcement, Col. Arthurs said that following discussions with the minister of pensions,

Muskrats Menace Free States' Hydro Scheme

Government Seeks Canada's Advice On Means Of Extermination

Dublin, Irish Free State—Canadian muskrats are believed to be threatening the "Free State's" great hydro-electric scheme on the river Shannon. In an unguarded moment last year the Department of Agriculture gave permission for the importation of two of the rats from the Dominion.

After a short period in captivity the animals escaped from their owners and last week it was discovered the Free State was afflicted with a pest from which it had hitherto been free.

Half a dozen of the rats were shot by a Tipperary farmer who observed them in a Shannon embankment and mistook them for otter.

The Department of Agriculture has ordered an investigation and experts from the Department of Industry and Commerce, suggesting measures will have to be adopted to prevent the pests from damaging the hydro-electric scheme's embankments.

The government has promised to introduce a bill in the fall which will make the rats illegal inhabitants of the Free State, believing the present system of licensing importation is inadequate. In the meantime the department of agriculture is to seek advice from the Canadian Department of Agriculture as to the best means of exterminating the animals.

Prorogation Of House Is Anticipated

Ottawa, Ont.—Possibility of an early prorogation of the House of Commons was seen in the course of an interchange on the subject between Prime Minister R. B. Bennett and Rt. Hon. Mackenzie King, leader of the official opposition.

The question arose when Hon. E. N. Rhodes, Minister of Finance, asked for a second interim supply of 12 of the total, in order to carry on day to day requirements of government, and meet the May 15 salary list.

Mr. Mackenzie King suggested that, as the opposition had no desire to further prolong the session, it might be possible to prorogue before the middle of May and that interim supply would not be necessary.

Interest Rate On Loans Cut

Ottawa, Ont.—Confirming the statement of the Minister of Finance, Hon. E. N. Rhodes, to the House of Commons some days ago, the Dominion Government has reduced its interest rate on loans to the provincial administrations by one-half of one per cent. In an order-in-council tabled in the House, it is set forth that after May 1, the rate of interest on such advances will be 5 per cent. instead of 5½%.

Surtax On U.S. Goods

French Minister Of Finance Is Ready To Take Action

Paris, France.—The ministry of finance has prepared to impose shortly a 15 per cent. surtax on U.S. goods. The decree, it was learned, is ready for signature, to be issued when the U.S. dollar approaches 20 francs, which officials expect.

This surtax already is effective on British and Japanese goods because of depreciated exchange.

It cannot be increased without parliamentary authority, which Premier Daladier was reported contemplating.

American residents in France and tourists, who already have lost a large part of their incomes, have been hard hit by the 15 per cent. fall in the dollar. Many of them, unable to hold out longer, are beginning to flock back homeward.

Movements of both the dollar and the pound sterling have been complicated by the weakness of the franc, but it was hoped France will be helped by measures the government is considering to defend French commerce and further slashes of the budget by the senate. This, the ministerial press indicates, the cabinet supports.

Weakness of the franc was attributed to concern over the repercussions of commerce of the unbalanced French budget and the necessity for borrowing abroad.

A general race to wind up pending commercial pacts before the concluding date of the world economic conference in London, England, June 12, was discussed in some quarters.

Pioneer Woman Legislator

Mrs. Mary Ellen Smith Dies At Vancouver

Vancouver, B.C.—Mrs. Mary Ellen Smith, pioneer woman legislator of British Columbia, and first woman to hold cabinet rank in any British Empire parliament, died in hospital here May 3rd.

On April 22 Mrs. Smith suffered an attack of cerebral hemorrhage and had been unconscious since. She was born in England 72 years ago.

Mrs. Smith first represented Vancouver in the British Columbia legislature in 1918, succeeding her late husband, Hon. Ralph Smith, minister of finance in the provincial cabinet, and a former member of the House of Commons. In 1921 she was appointed minister without portfolio by the then premier, Hon. John Oliver, but retired from that position later the same year. She continued to sit in the legislature until 1928.

Mrs. Smith took great interest in all legislation pertaining to the welfare of women and was responsible for many acts for the betterment of their condition.

World Expects United Action At Conference

Plans Rapidly Taking Shape For Economic Parity In London

London, Eng.—Plans are rapidly going forward for the holding of the world economic conference in London, probably starting June 12, to which the world is looking for definite forward steps by united action on the part of all countries toward a lowering of barriers to international trade and a stabilization of currency.

From Canberra, capital of Australia, came definite announcement that Stanley Bruce, minister resident in London, England, will represent Australia at the party.

Probability the veteran statesman and former prime minister, Jan Christiaan Smuts, of South Africa, will be among three representatives of the union, was mentioned in Pretoria.

PRESS PHOTOGRAPHERS BID MACDONALD BON VOYAGE

Here is an interesting photograph of Prime Minister Ramsay MacDonald, with his daughter Isobel, photographed on board the liner "Berengaria" just before he said goodbye to America. The press photographers gave him one of their typical "bon voyages," and a few of the camera men can be seen in the foreground.

CREATED BRITISH AIR FORCE

Great Britain has lost one of the greatest minds behind the creation of the British Air Force with the sudden passing of Sir William Geoffrey Salmond, commander-in-chief of the Air Defence of Great Britain.

He was to become Chief Air Marshal this month, in succession to his brother, who was to retire.

Obligations Will Be Covered By Debentures

Shareholders At Annual Meeting Of C.P.R. Approve Issue

Montreal, Que.—To permit the liquidation of short term loans amounting to \$30,000,000 and other maturing obligations, shareholders approved the issue of additional consolidated debenture stock at the annual meeting of the Canadian Pacific Railway Company here.

In his address to the meeting Edward W. Beatty, chairman and president, said despite unfavorable conditions the operations of the company showed it had come through in excellent physical condition and with its financial structure on a conservative basis.

Working assets at the end of the year were \$32,811,444, while current liabilities were \$14,311,257, a ratio of 3.7 times.

Mr. Beatty, Senator Frederick L. Beigle, W. A. Black and Lord Shaughnessy were re-elected to the board of directors their present term of office having expired. The address of Mr. Beatty was adopted without discussion.

Railway Making Profit

B.C. Road Announces Revenue Exceeded Expenditures

Vancouver, B.C.—The Pacific Great Eastern Railway is one of the brightest spots in British Columbia industry, according to reports just submitted by Robert Wilson, executive assistant to the board of directors. Revenues will exceed expenditures for the first six months of the current year, it is proposed.

Mr. Wilson declares this will be the first time revenue has topped expenditure in the first six months of any year the road has been operating.

Statement for March shows a profit on operation of \$879, as compared with a loss of \$14,685 in March of last year.

Ottawa May Erect Building

Ottawa, Ont.—A large office building in Ottawa is planned by the government to relieve unemployment. It would be west of the Confederation building on Wellington Street. It is proposed that the new structure, which would cost \$5,000,000, would be paid for by "transient notes," to be paid off in annual payments, instead of the more costly plan of issuing debentures.

Railway Bill To Appoint C. N. R. Board Of Managers Is Advanced

Ottawa, Ont.—The government railway bill to appoint a board of three members to manage the Canadian National system and bring it into close co-operation with the Canadian Pacific, passed through committee stage in the House of Commons. It remains to be given third reading.

The railway bill, based on the recommendations of the Duff transportation commission, has been a contentious item since its introduction a month ago. The committee stage was just a series of amendments, the majority of which the Liberals.

Premier R. B. Bennett accepted a Liberal suggestion to remove the panel system in the appointment of trustees. Under the bill, as drafted, vacancies in the board would be filled from a panel of eight names supplied by the president of the exchequer court, the chairman or the board of railway commissioners and the remaining trustees. As amended, the cabinet would have power to fill vacancies as well as make original appointments.

The government also accepted an amendment to bring the National Railway financial budget under the control of the trustees, but "subject to the approval of parliament."

Great Air Armada

Italian Aviators To Cross North Atlantic In June

St. John's, Nfld.—Italian aviators experts, busy preparing for the great air armada that will cross the north Atlantic in June, announced recently that two submarines and two drifters would arrive here the middle of May.

These vessels will act as convoys for the 24 airplanes of the "11th year crusade" along the northern route.

The airplanes, scheduled to leave Orbetello late in May or early in June, will fly to Chicago for the Century of Progress Exposition, touching at Amsterdam, Holland, London, Liverpool, Iceland; Reykjavik, Iceland; Cartwright, Labrador, and Shetland, New Brunswick.

The air armada planes arrived here last week on the liner "Rosalind," and as soon as weather permits they will fly to Cartwright to establish a supply base for the flotilla.

To Prosecute Gold Hoarders

Time Limit For Surrender To U.S. Treasury Has Expired

Washington, D.C.—United States government has said it intends to proceed against gold hoarders, but it has yet to reveal its course of action. Indications are that many hoarders are waiting for treasury officials to show their hand.

The time limit for returning gold has expired, and it is understood the treasury is checking a list of hoarders compiled by banks. Last week there was approximately \$700,000,000 in gold and gold certificates still out, the bulk of it believed to be in hiding in this country.

Re-Armament Idea Is Disavowed By Germany

Delegate To Conference Says Opinion Is Wrong

Geneva, Switzerland.—Germany, through its delegate to the world disarmament conference disavowed the "opinion that Germany wishes to avail herself of disarmament to proceed with re-armament at the highest possible level."

Count Rudolf Nadolny, the German representative, proposed the British armament plan be changed to provide a maximum calibre of 105 millimetres for mobile guns and to abolish all tanks.

"There are still great difficulties but they are not insuperable," Count Nadolny declared after suggesting the amendment and explaining that if the German proposals are rejected, his nation should be allowed all land, naval and air armaments deemed necessary for defence by other countries.

Sugar Tax Passes House

After Liberals Made Demand For General Retrenchment Scheme

Ottawa, Ont.—The two-cent sugar tax passed the House of Commons after demands from Liberals for a general retrenchment scheme to trim the costs of government. Official Ottawa, said Hon. James Malcolm, former minister of trade and commerce, should take a lesson from private business and cut its overhead. He instanced the 34 research laboratories operated in various government departments and, at the same time a national research council equipped to handle the same work.

Britain Is In Favor Of The U. S. Proposal For A Tariff Truce

London, England.—Prime Minister Ramsay MacDonald announced in the House of Commons that Britain favors the U. S. proposal for a tariff truce during the period of the world economic conference with safeguards for Britain's special tariff position.

Mr. MacDonald agreed to hold a full debate of the Washington convention and of the British policy at the world economic conference.

The prime minister informed the House Mr. Roosevelt, M. Herriot and himself had agreed in regard to plans for the world war.

He agreed fresh and filled with confidence as he reviewed the Washington talks.

The prime minister quickly roused the members to most intense interest. They took their necks and sat on the edges of their seats as, at the outset of his report on his discussions in Washington with President Roosevelt, he jumped into the question of the tariff truce.

With tariff issues paramount in the house, Mr. MacDonald made it clear that while President Roosevelt, Eduard

THURSDAY, MAY 11, 1933

NOTES AND COMMENTS

Various worth-while enterprises will engage the energy of Coleman citizens during the coming months. The old opera house, scene of many activities in Coleman's history, will again blossom forth in usefulness. Empire and Victoria Days will be observed by a citizens carnival, in which school-children will take a leading part. The band has been re-organized and keen interest is being shown. So many want to play a horn that it is feared there will not be sufficient instruments.

The council has sanctioned the beautifying of the plot at the town hall, where will be placed the soldiers' memorial. More interest is being shown by the people than in previous years in planting trees and shrubs, so that we may enjoy a more beautiful town.

More careful supervision of dumping ashes and rubbish is required to eliminate eyesores. Spots quite prominent are too convenient for those who are not particular, and who care nothing for beauty or cleanliness. With unexcelled natural settings, mountain towns can be made very attractive, yet lack of building regulations in some quarters detracts from the praiseworthy efforts of those whose work denotes pride in the surroundings.

The Citizens League has its detractors. It includes those who apparently while enjoying the liberty which Canadian laws guarantee, openly avow their enmity to those who by co-operation are trying to minimize the handicaps which all have suffered from in recent years. Destruction and disaffection are the main props whereby they rally unemployed to their banner. Where they cannot wage an open campaign, they work in devious ways to undermine the morale of those who are honestly striving to find a way out of difficulty. Such tactics in Soviet Russia not infrequently lead offenders to the firing squad. In Canada they are tolerated because we believe in free speech, which privilege is abused to the extent of circulating abuse and untruth.

Despite increasing difficulty in meeting taxes, ratepayers are gallantly carrying on trying to meet their obligations. Many have sacrificed life and fire insurance premiums simply because incomes have been depleted to such an extent that they simply hadn't the money. Taxes unpaid may be made a lien on the property, and pride of home ownership compels people to lop off other things to pay taxes and maintain municipal and school board solvency. Records of the past three months in regard to payment of taxes levied by the town council show that an earnest effort has been made by many to keep taxes paid, despite the sacrifices made in other directions.

"The Silver Dollar," shown at the theatre this week, typified the ups and downs of a type reminiscent of the boom days of silver mining in Colorado. Material wealth was the guiding star of the leading character, and though he attained the highest office of the State, he hastily fell from his pedestal when the value of silver collapsed. The picture possessed historical and moral value which shows that after all, history keeps on repeating itself.

Two million dollars in subsidies to the coal industry is not a large sum when considering the amount required for unemployment relief. The logic of the free traders who would prohibit subventions is difficult to understand under present conditions. If the money is not granted for subventions which result in more work for Canadian miners, added appropriations for unemployment relief would be required. Men would rather work than be on the dole, therefore the Federal government's action will meet with approval.

Pardon the ringing in of money matters into this column, but to those who may owe The Journal sums of money, large or small, we would point out that it is urgently required to carry on our "labor of love" whereby we try to earn sufficient to pay the baker, the butcher and the grocer.

Hillcrest Male Choir at Church

The evening service at St. Paul's United church on May 7 was featured by the appearance of Hillcrest male choir, under the leadership of T. Beynon, T.C.M. Howell Powell, baritone, sang a much-appreciated solo, and Mr. Beynon played a piano-forte solo in his own finished way. The minister preached briefly on the topic, "What Christ Means by a Good Man." Expressions of appreciation were voiced by the congregation which crowded the church.

Sunday, May 14 services will be

12:30 p.m. Sunday school, 7 p.m. even-song and address

Rev. A. J. D. Milton, pastor of Fernie Baptist church for nearly four years, is leaving this week to take a charge in the town of Peace River, Alberta.

McGILLIVRAY CREEK COAL and COKE CO. LTD.

Shippers of High Grade Bituminous Steam Coal

Head Office and Mines:

COLEMAN . . . ALBERTA

BIGGEST BARGAIN IN COLEMAN - -

Because an overwhelming majority of homes in Coleman "just can't get along without The Journal," the Coleman Journal ranks high as a real Household Necessity. More than that, at the low subscription rate of \$2.00 a year, or five cents a single copy, The Coleman Journal is a bargain.

will buy only one of these things: A package of chewing gum . . . one cigar . . . a loaf of bread . . . a cup of coffee . . . a candy bar . . . a hamburger sandwich . . . the tax on one and two-thirds checks . . . ten minutes (more or less) at a movie . . . three aspirins for a headache . . . a package of lifesavers . . . almost enough stamps to mail two letters.

(Some of these are bargains, some are not.)

invested in a copy of The Coleman Journal (4 cents when paid by the year) will do all of these: Keep you in touch with the happenings of the Coleman Community . . . bring you the messages and "pocket-book news" of Coleman's stores and business institutions, with opportunities of saving money . . . tell you about your church, your school, your lodge, your club, your neighbors and friends, yourself . . . give you a share in a home enterprise devoted to the good of your community . . . make you part of that community. (No other bargains like it.) Fifty-two weekly visits of The Journal for less than 4 cents a week.

COLEMAN JOURNAL \$2.00 a year. Worth More.

Brewed in Alberta **BEERS** ARE Pure and Wholesome

Months of careful brewing of high-grade grains, choice hops and clear filtered water, go to make these sparkling, full-flavored beverages. Aged for months and fully fermented before they reach the public. Drink properly brewed beers only, the purest of all beverages.

Federal Government Economics In Reduction Of Expenditures Results In Saving Of \$81,000,000

Reductions in controllable expenditures over the last three years, coupled with the \$14,000,000 provided in the last budget, have resulted in total government economies of \$81,000,000. Hon. E. N. Rhodes, minister of finance stated in a circular letter forwarded to all Canadian Chambers of Commerce and Boards of Trade which recently called upon the federal administration to "set a good example" in matters of economy.

"The government is in cordial sympathy with the objects you have in mind," Mr. Rhodes wrote. He expressed the opinion that all factors of the problem, in respect to government expenditures, had not been considered.

Even if every salary, pension and parliamentary indemnity were cancelled, there would still be a deficit of \$26,000,000,000 in the non-controllable obligations, he wrote.

"Furthermore," the letter proceeded, "I may point out that for two years past, through action of the treasury board, promotions and increases of pay have been held in abeyance, and as vacancies have occurred in the government service, the positions have been abolished. These and other restrictions have resulted in a reduction in the total charge for salaries and wages of \$4,500,000 per annum, and a reduction of over 4,000 employees. This is in addition to the saving of \$8,000,000 per annum effected by the 10 per cent. reduction from all salaries and wages."

"In calling for economies, it is erroneously assumed that reductions in controllable expenditure could be made to such an extent as to balance the budget without resort to additional taxation. I submit a few figures in round sums which will indicate the impossibility of such a suggestion.

"Based upon the taxation measures in force prior to the last budget, estimated revenue for the fiscal year 1933-34 is \$287,000,000, our estimated expenditure for the coming year is \$445,000,000, in which are included the following items of uncontrollable expenditure:

Interest charges, \$133,000,000. Canadian National Railways deficit, \$55,000,000.

Pensions and soldiers' care \$58,000,000.

Subsidies to provinces, \$15,000,000.

Old age pensions, \$12,000,000.

Unemployment relief, \$35,000,000.

"These items are fixed and uncontrollable beyond question with the possible exception of that for unemployment relief, but, having regard to existing conditions in Canada and the inescapable demands which are made upon the Dominion treasury in this connection, this item can, I think, fairly be included. The total of the above items is \$313,000,000.

"It will thus be observed that if we were in a position to eliminate every dollar of so-called controllable expenditure we would still have a deficit of \$26,000,000. That is to say if we were in a position to dismiss approximately 56,000 permanent civil servants (not including casual employees); stop their superannuation payments in breach of contract; pay no indemnities to members of parliament or to senators; pay no judges' salaries; dismiss penitentiary staffs, the mounted police force, all customs officers, lighthouse keepers, harbor masters, etc.; in other words, if the government were to dismiss every civil servant and close all government activities, there would still be a deficit of \$26,000,000.

Depth Of The Sea

New Deep Sea Sounding Is Made In Pacific Ocean

A new deep in the bed of the Pacific Ocean was reported in a message from the U.S.S. Rambow, Capt. C. E. Mayo, commanding the naval oil tanker, reported that by repeated use of the sonic depth finder, the depth had been measured at 5,501 fathoms, or 33,006 feet, it was found. The message said, at latitude 30°43' north, longitude 142°20' east, which would place it directly across the Pacific Ocean from San Diego near the coast of Japan.

The new sounding approached the greatest known depth, that of 34,210 feet found in the Mindanao trench northeast of the island by that name in the Philippine group.

Freddy—"What is an iceberg, Dad?"

Daddy—"Why, it's a kind of a permanent wave, son."

Decrease In Fish Sales

Catch In North Greater, But Price Lowers Receipts

The value of fresh fish shipped out of the Pas district during the past season was \$33,561, according to the report of E. H. Stevenson, fishing inspector. Last year the amount received by fishermen was \$58,099. The decrease is attributed to the fact that meats and fish of the population districts are so low in price that northern fish, subject to longer freight rates, and therefore increased overhead, cannot compete with other markets.

The catch per man this year was greater than last year, but the receipts were less owing to low prices.

The total number of pounds shipped out last year was 883,700, as against 920,400 last year. There were 138 licenses issued for the season of 1931-32, as against 93 in 1932-33.

Expect To Reach Hundred

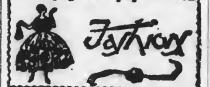

Seventy-Eight Year Old Texas Man Thrives On Beans

Thomas Jaime, 78, one-time pony express rider and resident of El Paso, Texas, lives on a diet of frijole beans and expects to live to be 100 years old.

"And if I reach that age," he declared, "I'm going to celebrate it riding in an aeroplane. I'd like to see how those pilots carry the mail."

Years ago Jaime rode the express trail from Fort Davis, Texas, to Roswell, New Mexico.

SPRING IS IN THE AIR!

It's so fresh and lovely in silk crepe print!

It's all puffed up about its sleeves!

And isn't the buttoned wrapped bodice smart?

It's all beneath the spring coat in a vivid red or blue and white print in crinkly crepe silk. And you can wear it right through the summer season.

It's easily made and will cost so little.

Style No. 991 is designed in sizes 14, 16, 18, 20, 22, 26, 38, and 40 inches bust. Size 16 requires 3½ yards of 39-inch material.

Plain crepe silk in gray, brown or tan, or black is also delightful and attractive in this model.

Price of pattern 20 cents in stamps or coin (coin is preferred). Wrap coin carefully.

Education and Economy

Carrying Saving To The Point Where Essential Education Is Denied

The Seattle Post-Intelligencer reports that in 15 out of the 48 states in the American union, public schools have been closed and no other provision has been made to continue child education.

In 49 states school terms have been abridged to save money, and thousands of children have been deprived, to the extent of the abridgement of educational opportunities that should be theirs.

In 35 states, the teaching staffs have been reduced to the point where classes are overcrowded and can not be taught properly.

In sum, concludes the Post-Intelligencer, the whole public school system of the nation faces imminent breakdown, the disastrous social and moral effects of which will be felt for a generation. The newspaper concludes by denouncing the "false economy that breeds ignorance, poverty and crime."

All economy in educational affairs is not, of course, false-economy. There can and should be true economy, an elimination of extravagance and waste, a pruning away of harmful and unfruitful expenditures. But in economies, as in extravagancies, we tend to run to extremes, and there is a real danger, in Vancouver as in the cities and towns across the international boundary, that, in trimming away educational facilities, the admitted rights of the rising generation shall be invaded. We must leave them, if we are to be fair, all the facilities possible for solving the problems we are throwing at them. And we are not leaving them all the facilities possible if we give them fewer educational advantages than we can by hook or by crook, provide.

WORLD HAPPENINGS BRIEFLY TOLD

In a fine state of preservation a 70-year-old note of the private banking house of MacArthur and Knowles of Prince Albert, North West Territories, has been found there.

People live to a ripe old age in Victoria. Out of 245 persons buried in Ross Bay Cemetery last year there were 50 more than 80 years of age. Nearly 50 per cent. had reached 70.

Germany has proposed to the world disarmament conference that the British arms plan be amended to provide a maximum calibre of 105 millimetres for mobile guns and to abolish all tanks.

F. J. Burn of the Vancouver Daily Province and a director of the Canadian Press, was re-elected director of the American Newspaper Publishers' Association at the close of the 47th annual convention in New York.

Doukhobor children to the number of 154, who have been held almost a year in various public institutions at the coast, have been returned to their relatives in the Doukhobor settlements at Nelson.

Pointing out the railway line has been into Churchill for more than four years, a delegation at The Pas is urging the Manitoba Government to complete a hotel this summer for the accommodation of the travelling public.

The last train that will ever run over the abandoned Canadian Pacific line at Mono Road, Ontario, killed A. Stewart, Toronto, and injured Frank Sandell, whose car was struck by a work train proceeding to tear up the line.

One million trees—mostly spruces and pines—will be planted in Valcartier district by the unemployed men to be stationed there by the Dominion Government this summer. They will be furnished by the Quebec Government.

Reduction in the board and residence fees of Royal Victoria College, women's section of McGill University, was announced. The fees will be reduced from \$500 to \$450 and the new scale will go into effect at the opening of the next term.

The number of persons in Canada who are receiving direct relief is placed "over 1,600,000" by Miss Gertrude Whilton, executive director of the Canadian council on child and family welfare, in her report. The monthly cost of this relief Miss Whilton places at approximately \$6,000,000.

Win Strathcona Fellowships

Award To Three Canadians Announced By Yale University

Award of five Strathcona fellowships for the investigation of transportation problems has been announced by Yale University, three of the fellowships being awarded to Canadians.

The recipients are Robert A. Emerson, Morden, Man.; S. Milne Gossage, Montreal; Palmer E. Savage, Montreal; Thomas M. C. Martin, Warsaw, Wis.; and Lyell R. Shellenbarger, Hopkins, Minn.

Strathcona fellowships were made possible by the bequest of Lord Strathcona, identified with the pioneer days of railroading in Canada. All five successful candidates have had previous railroad experience, two of them being third generation railroad men.

Children Uprooted Trees

Jealous Because They Were Left Out Of Arbor Day Ceremony

Jealous children who were not chosen to assist in an Arbor Day ceremony took their revenge at Ladysmith, South Africa. The town fathers and leading citizens assembled on the sports ground and entertained a number of school children. Lectures on trees were delivered and after the speechmaking the children were entertained with music and refreshments. The mayor and magistrates then each planted a tree, assisted by certain children. Next morning the trees were found uprooted and stripped of their foliage.

Aircraft In Demand

There is practically no depression in Edgware, Middlesex, England. British civil aircraft have proved so popular that the De Havilland aircraft factory has been forced to work a full shift both night and day. The company's business has increased 40 per cent. in recent months and deliveries have been held behind orders.

Highway freight services in France are increasing.

Banks in Three Countries

U.S. Operates Under Many Laws, England and Canada Only One

A correspondent has asked the Transcript a question which thousands of people are asking: "Why do we never hear of banks closing their doors in England or Canada, no matter how hard the times?" An historian might flavor his answer with humor: "It is because the United States, the most progressive nation on earth, is in this regard about one hundred years behind the procession." While Great Britain has merged her whole commercial banking system into five very strong institutions—Barclays, Lloyds, Provincial, Midland and Westminster—operating throughout the kingdom under but one law and plan of regulation, the United States has thousands and thousands of banks, most of them small units, operating under forty-nine different sets of laws and forty-nine different regulatory authorities, excellent in some states, as in Massachusetts, but varying from weak to miserable in many others.—Boston Transcript.

Popularity Of Air Travel

Bookings From London To Paris Are Increasing Daily

Before the air liner "City of Liverpool" crashed in flames the number of people flying to France by the Imperial Airways was about 90 a day.

Now, after the crash, more than 130 people are travelling to Paris by air every day—and the bookings are still rising.

The bookings for Easter were the largest ever known. Every aeroplane had been duplicated, yet there were no more seats on the ordinary routes for Easter.

More aeroplanes are being added to the services to cope with the surprisingly heavy demand for seats.

"This is by far the greatest demand for air liner seats that we have ever experienced," an Imperial Airways official said to a newspaper representative recently.

685
GOOD LOOKING SPRING WEAR

Copied at a small outlet.

It's slenderizing too with its crossed bodice and paneled cut skirt.

Navy blue and white print now so popular is made in the original in a soft crinkly crepe silk.

Style No. 685 is designed in sizes 16, 18, 20 years, 36, 38, 40, 42, and 44 inches bust.

Style requires 37 yards 39-inch wide $\frac{1}{2}$ yard 39-inch contrasting.

Price of pattern 20 cents in stamps or coin (coin is preferred). Wrap coin carefully.

MUSIC "HEARD" BY THE DEAF

Here is pictured a remarkable experiment recently conducted at a New York school for the deaf, whereby deaf children were enabled to hear. Instead of trying to make the sound penetrate the ears of the sufferers, this device carries mechanical vibrations through the bones of the head. Countess Olga Alibani is shown singing into a microphone as the deaf children listen. This was the first time many of the children had ever heard music.

No More Mass Marriages

New Rector Of St. George's In London, England, Does Not Like Idea

Mass marriages, which have for years been a feature of the Easter festival at the Church of St. George-the-Martyr, Borough High Street, are to be held no more.

For years it has been the custom for young Southwark couples to get married en masse at St. George's on Easter Sunday. Some years there have been as many as ten couples kneeling at the altar at the same time, and one marriage service has married them all. But never again will ten bridegrooms have to take such care to place the ring upon the finger of the right bride, nor, after the ceremony, will ten wives run the risk of being kissed by the wrong husband.

St. George's has a new rector who does not like the idea of mass marriages. He is the Rev. E. C. Cook, who was formerly Vicar of All Saints', South Lambeth, and has been at Southwark only a few weeks.

"I am determined to have no more mass weddings at St. George's," Mr. Cook said the other day, "and I don't think the young people are at all sorry. One of the chief reasons why several couples were married together was because it saved time, and I don't think the young people themselves specially desired it. When you have a number of couples being married at the same time it is impossible for them to regard the ceremony as a solemn sacrament."—Overseas Daily Mail.

Changing Editorship

Famous Boys' Own Paper To Have New Head

One of the most famous editorships in the British Empire, that of the Boys' Own Paper, is about to undergo a change. It is only the second change in this position since the paper was founded 54 years ago.

Geoffrey Richard Pocklington, who has been editor for the last 11 years, is retiring.

Brought up in a family atmosphere of service to the church and to the army, Mr. Pocklington has been associated with all kinds of movements on behalf of boyish life for at least 30 years. A generation ago the supremacy of the "B.O.P." amongst papers of its kind was virtually unchallenged, and its following among boys of all ages past is still very strong.

How many grey-haired and bald-headed boys of today are grateful to the "B.O.P." for having given them the works of Henty, Kingston, Jules Verne, Talbot, Baines, Reed and Ascott Hope? W. G. Grace, the unapproached in cricket, Captain Webb, the first to swim the Channel, and who was drowned in a attempt to swim the Niagara rapids, wrote for the "B.O.P." and Whymper described his exploits on the Matterhorn in the same pages.

After a checkered career of 353 years Archbishop Abbot's school, Guildford, England, has been closed for lack of funds.

Style No. 685 is designed in sizes 16, 18, 20 years, 36, 38, 40, 42, and 44 inches bust.

Style requires 37 yards 39-inch wide $\frac{1}{2}$ yard 39-inch contrasting.

Price of pattern 20 cents in stamps or coin (coin is preferred). Wrap coin carefully.

Awarded Fellowships

Three westerners are among students who have been awarded fellowships for 1934 by the Royal Society of Canada.

They are: James Roy Daniels, English literature, British Columbia; George Alan Harcourt, geology, Alberta; George F. G. Stanley, history, Alberta. They are awarded for advanced research in the subjects named and are worth \$1,500 each.

How to get to SLEEP

When you can't sleep, it's because your nerves won't let you. Don't waste time counting sheep. Don't lose half your needed rest in reading. Take two tablets of Aspirin, drink a glass of water—and go to sleep.

This simple remedy is all that's needed to insure a night's rest. It's all you need to relieve a headache during the day—or to dispose of other pains. Get these Aspirin tablets and you will get immediate relief.

Aspirin dissolves immediately—gets to work without delay. This desirable speed is not dangerous; it does not depress the heart. Just be sure you get Aspirin tablets.

ASPIRIN

Trade-mark Reg.

Canada's Economic History

Exhaustive Research Throw Fresh Light On Canadian Development

Canadian scholars are adding, by their industrious researches, new leaves to Canadian History. There are a number of gaps in the records, and places where the tale is unsatisfactorily vague, and the patient labor that is being applied to fill in these pages, is worthy of merit and encouragement.

What Mr. H. A. Innis is doing for Canadian Fur Trade, and Dr. D. A. MacGibbon has done for Canadian Wheat Trade, Dr. A. R. M. Lower is doing for Canadian Lumber Trade. It is good news to hear that Dr. Lower has recently received an award from the Social Science Research Council for use in completion of his study of Canadian Lumber Trade in the nineteenth century.

This research is not to result in a mere compilation of documents and annals, but is an approach to the appreciation of a new English and French-speaking Canadian nationalism by the study of a staple trade. This point of view, which seeks knowledge on Canadian economic history, as well as social trends and political science theory, is throwing fresh light on the development of Canada's nationhood.

Dr. Lower will spend the summer studying the origins of the old Timber trade in England, and will make comparative studies in the Baltic area, looking through records in the old cities of Danzig, Stockholm and Leningrad.

Students of Canadian History owe a debt to the indefatigable researches that scholars from coast to coast are putting forth to make the records complete. Winnipeg shares in the appreciations of their work—Winnipeg Free Press.

Wet Days Are Holidays

The only donkey on the establishment of the British army is Billy, a grey jacksass stationed at Gibraltar. His job is to carry wet clothes from the military laundry to the drying ground and bring them back when they are dry.

Every wet day is a holiday for Billy.

Russian Newspapers

In Russia in 1913 there were 859 papers with a total circulation of 2,500,000. In 1914 Russia at the beginning of 1931—the latest figures available—there were 5,600 papers with a total circulation of 88,000,000, and papers are printed in eighty-four languages.

"NOW I FEEL FULL OF PEP"

After taking Lydia E. Pinkham's Vegetable Compound

That's what hundreds of women say. It soothes the nerves... makes you eat better... sleep better... relieves periodic headache and backache... makes trying days easier.

If you are not as well as you want to be, give this medicine a chance to help you. Get a bottle from your druggist today.

Not Afraid Of Sharks

New York Naturalist Says Majority Of Them Are Harmless

Sharks should have made a meal of Mr. Van Campen Heilner years ago, for life only becomes worth while for this New York naturalist—now visiting London—when he is studying the habits of these man-eaters on the bed of some tropic sea.

"I am just a bit of a human shark bait," said Mr. Heilner, and he spoke the truth, for he has no scores of occasions ventured unarmed among sharks forty feet below the sea.

He has taken half-hour strolls along valleys of death beneath the waves, where his companions have been sharks and the even more deadly barracuda.

For nine months in the year Mr. Heilner has to work in his father's office, buying and selling coal.

Then for three months he lives on little-known tropical islands, studying life in the world of water which he makes his playground.

He will shortly sail for a destination in the Indian Ocean to search for new species, and renew his flirtation with hideous death.

"The majority of sharks," he said, "are harmless. There are 250 different kinds of shark, and only half a dozen are dangerous to man."

"I am not afraid of sharks, but I am afraid of the barracuda and the octopus."

"The barracuda is a wholly evil fish that bites at anything moving, small or large."

"The shark is about the least intelligent of fish. It is so stupid that in Greenland the so-called 'sleeper shark' has not the sense to go out with the tide. It allows itself to be stranded high and dry on the beach."

Mr. Heilner said there is nothing left for the naturalist on the earth's surface. "The future of exploration," he went on, "is 'under the sea.'

"I firmly believe in the existence of the sea serpent. There are also other monsters of which we know nothing."

"There are certainly larger monsters than the whale. The sea serpent is one, and from my studies I should say it takes the form of a kind of giant otter."

The coal merchant-naturalist described strange fish he has seen. "I suppose," he said, "some of them would provide new dishes for the table, but I am scared stiff of fish poisoning."

"It is dangerous to eat fish in the tropics. In Ecuador, South America, nobody with any sense eats fish of any kind after 11 o'clock in the morning. This is because of the rapid deterioration."

"When I was last in those parts no rain had fallen for 75 years at one place. It poured for four months, and the desert blossomed. I was searching for the breeding ground of the Galapagos bony fish, a sort of large sprat."

Cause Of Suicides

Masculine Vanity Said To Be At Bottom Of A Large Percentage

A study of suicides in the United States as disclosed in cold insurance company statistics led Dr. William Muhlburg to conclude that masculine vanity was at the bottom of a large percentage of these tragedies in the last three years.

"The thing that drives men to take their own lives, it seems," he said, "is their inability to swallow the pride they have enjoyed building during their prosperous years. It is not the haunting fear of seeing their children go hungry, or his wife weaker under the monotony of housework, so much as it is the agony of visualizing his neighbor's glee when his 12-year-old super-sedan is sold, and the family withdraws from the country club."

To Make Stratosphere Flight

Professor Piccard Has Asked U.S. Balloonist To Make Trip

The Goodyear Zeppelin Corporation has announced that Lieutenant-Commander T. G. W. Settle, chief of the United States navy's inspection bureau in Akron, and international balloon race champion, will make a stratosphere flight from Chicago this summer.

The announcement said the balloonist was asked to make the flight by Professor Auguste Piccard, famed Swiss stratosphere balloonist, following the latter's visit here last March.

The proposed flight may be made sometime between July 1 and 20.

There are many metals lighter than aluminum. The lightest of all, lithium, will float on water like a cork.

The strength of the British army is 5,000 below establishment, but 3,000 higher than a year ago.

High Above the Clouds

Test Balloons Sent Up From Airport At Calgary

Canada's knowledge of conditions in the stratosphere high above the clouds has been enriched by recovery of nine of 16 meteorological balloons released at the Calgary airport since last August.

Announcement of the recovery of the balloons was made by Lieut.-Commander C. H. Bromley, representative of the Dominion meteorological service at Calgary, who released two of the balloons each month. The tests, in conjunction with other work being carried on as Canada's share in the international polar year investigations, will be continued until the close of the polar year in August of this year.

Nine miles above the earth—a mile short of the height reached by Professor Auguste Piccard in his balloon ascent to investigate the stratospheres—was the highest any of the balloons released here reached. Some expanded and burst when only three miles high, but the average altitude reached was 40,000 feet—almost eight miles.

Contentment Without Riches

Man Found Peace In Life After Fortune Was Gone

In Newton, Iowa, is a man, Frank F. Faylor, 74, who has lived three lives.

Supports Schoolboy's Verdict

London Professor Has Poor Opinion Of Old Roman

Schoolboys of many generations have been inclined to vote Caesar was a bore at the very best. Poor is their opinion! It is almost complimentary compared with that of Professor R. S. Conway, as given before the conference of the Classical Association in London, England.

"Julius Caesar is commonly spoken of as the founder of the Roman Empire," said the professor. "The truth is that he did nothing to create stable government beyond insisting that provincial governments should be held by men whom he appointed himself. Many of these were chosen from the ranks of foot-pads and cut-throats whom, as he said himself, he was glad to honor because they had supported him."

"No one can deny that Caesar was a man of splendid daring, and that he could on occasion show, especially to his inferior, a quite charming courtesy. But from many passages in the 'Gallic War' and from his own surviving letters it is plain that he was entirely wanting in humor and that his whole nature was soaked in self-esteem."

"Under the influence of Cleopatra, who was present in Rome in 46 and 44 B.C., this temper took shape in acts of senile vanity and gratuitous insults to the time-honored traditions of ordered civil life. This led inevitably to his assassination and the appalling civil wars of the next 13 years.

"There are certainly larger monsters than the whale. The sea serpent is one, and from my studies I should say it takes the form of a kind of giant otter."

The coal merchant-naturalist described strange fish he has seen. "I suppose," he said, "some of them would provide new dishes for the table, but I am scared stiff of fish poisoning."

"There are certainly larger monsters than the whale. The sea serpent is one, and from my studies I should say it takes the form of a kind of giant otter."

The coal merchant-naturalist described strange fish he has seen. "I suppose," he said, "some of them would provide new dishes for the table, but I am scared stiff of fish poisoning."

"Under the influence of Cleopatra, who was present in Rome in 46 and 44 B.C., this temper took shape in acts of senile vanity and gratuitous insults to the time-honored traditions of ordered civil life. This led inevitably to his assassination and the appalling civil wars of the next 13 years.

LOCAL AND GENERAL

Newspapers delivering The Journal will be pleased to leave a copy weekly at your home, if not already receiving it. Matt Brennen and Ani Celli deliver in town, West Coleman and Graftontown, and copies are also on sale at McBurney's drug store at 6c a copy, and at Bellevue and Blairmore drug stores. The cost mailed through the post office is 50c for three months, \$1.00 for six months or \$2.00 for 12 issues. Sample copies on request.

A buffalo head found whilst digging a trench in the grounds of the International office caused considerable interest as to how it came there, how long it had lain beneath the sod, and where the rest of the carcass is. Those who have given some study to the subject claim that in early days the Indians drove the buffalo from the plains into the gap between Turtle and Goat mountains, which forms the entrance to the Crows Nest Pass, and having corralled them, killed them. This may have been one of the animals which broke away from the main band.

ANNOUNCEMENT

Tuesday, May 30th
20 years experience and regular visits assure you of satisfaction in all optical work.

Sale of Timber

PUBLIC NOTICE is hereby given that there will be offered for sale by public tender at the office of the Provincial Forest Ranger at Coleman, Alberta, at 2:00 o'clock on Thursday afternoon, June 1st, 1933, the right to cut timber under Sale No. 204 on the following lands:

Sections 19 and 20 in Township 7, Range 4; Section 24 and the South half of Section 25 in Township 7, Range 5;

All west of the 6th Meridian.

On these lands there is estimated to be 1,600,000 Lineal Feet of dry Mine Props and 2,290,000 Feet, Board Measure, of dry Saw Logs suitable for the manufacture of Mine Props and Lumber, also Laging, but only such timber shall be cut as is marked or otherwise designated.

The sale will be offered subject to an upset price of one-quarter cent per linear foot for Mine Props. Saw Logs will be sold at \$1.00 per 1,000 feet, Board Measure, and Laging at 50¢ per 1,000.

The sale shall be for one year, but provided operations are conducted in a manner satisfactory to the officers of the Department and payments are being met satisfactorily, extensions to operate may be granted for a second, third, fourth and fifth year, but no further extension shall be granted.

Each bidder will be required to deposit with the officer conducting the sale the sum of \$620.00 in cash, bank draft or accepted cheque made payable to the Director of Forestry, Edmonton, Alberta, before being allowed to bid. Agents will be required to file letters of authorization from their principals before bidding. The deposits of the unsuccessful bidders will be returned to them at the conclusion of the sale and that of the purchaser held as a guarantee deposit to be forfeited in case of failure to comply with the sale conditions of the Forest Reserve Regulations.

Full particulars may be obtained from the Forest Supervisor at Calgary, Alberta, or the Director of Forestry, Edmonton, Alberta.

J. HARVIE, T. F. BLEFGEN,
Deputy Minister, Director of
Forestry.

Proclamation

Clean Up and Paint Up
Hear this Ye people. Think! Act!!

Know All Men, Women and Children
By these Presents:

THAT, Whereas the NATIONAL CLEAN UP AND PAINT UP CAMPAIGN has resulted in many advantages to community life.

In safeguarding HEALTH;
In promoting THRIFT;
In furthering FIRE PREVENTION;
In stimulating CIVIC PRIDE; and
In making the HOME AND CITY BEAUTIFUL;

NOW, THEREFORE, Be it known that plans have been perfected for a thorough CLEAN UP AND PAINT UP CAMPAIGN

May 15th to 24th.

This date to mark the Opening of a real campaign of persistent and constructive effort in cleaning up and KEEPING IT UP. In this worthy movement of Cleaning, Painting, Planting, Repairing and general Rehabilitation and Beautification we urge each citizen to do his or her best part to make our community

Clean, Healthy, Thrifty
Safe and Beautiful

COLEMAN TOWN COUNCIL,

Signed: G. Pattinson, Mayor

MEET ME AT THE

CARNIVAL

3 Big Nights May 23-24-25 3 Big Nights

You'll find me right there with the best "Hot Dogs," Hamburger Sandwiches and Coffee that you ever tasted.

You'll find our lunch stand a real place when you're hungry, and say, boys, when you're real hungry, what's better than to step right up to the lunch counter and grab a "hot dog" peped up with mustard!

Come right along with the whole family—there's going to be fun every minute. And we'll help to give you a welcome.

PALM CONFECTIONERY
